

Aptus VLA Battery Racks

Aptus delivers decades of experience in design and manufacturing, including developing products for the standby power and battery industry. We are committed to providing high quality US manufactured products. All Aptus racks are proven through independent testing and certification groups while providing unparalleled quality control and customer service.

The EnviroGuard Aptus Difference

EnviroGuard Aptus racks are IBC 2012, IEEE Moderate, IEEE High, UBC and NEBS certified. All racks are adjustable to accommodate most makes and models of batteries. Aptus racks are fabricated using certified welders and are powder coated with acid resistant epoxy to ensure longevity in standby battery applications. Aptus racks offer a patented Integrated (bolt-on) UL & FM approved spill containment system that eliminates the need to drill or glue the floor when installing the containment barrier walls. Customers on the Aptus Quick Ship program enjoy faster delivery of most common rack configurations

All rack Configurations Available:

- Custom Configurations
- 1-tier/2-row, 1-tier/2-step, 2-tier/2-row, and 2-tier/2-step configurations
- Standard lengths available from 2 to 20 feet.
- Splice kits are available for longer lengths.

Light Seismic Battery Rack Solutions

Seismic Qualifications:

- IBC 2009 & 2012 Certified (SDS of 1.6 at ground level)
- IEEE 693 Moderate Compliant
- Conforms to UBC Standards
- Certified by a California Structural & Professional Engineer

Heavy Seismic Battery Rack Solutions

Seismic Qualifications:

- IBC 2009, 2012 Certified (SDS of 3.2 at ground level)
- IEEE 693 High Compliant
- Conforms to UBC Zone 4 Standards for top of building
- Certified by a California Structural & Professional Engineer

NEBS Seismic Battery Rack Solutions

Seismic Qualifications:

- Dual certified to meet IBC 2012 Standards through triaxial shake testing
- NEBS Level 3, Zone 4 Certified
- Meets all requirement for Telcordia Technologies GR-63-CORE and GR-1089-CORE
- Certified NEBS ladder rack integration kit available

Non Seismic Battery Rack Solutions

- Certified by a California Structural & Professional Engineer
- Rugged construction and economical solutions
