

COMPLIANCE 103

ASSESSMENT & IMPLEMENTATION

Battery Room Compliance

DESCRIPTION

Site Assessments provide a measurement of compliance of codes, regulations, and industry best practices. This module reviews environmental, health, and safety checkpoints within the stationary battery room to enable the creation of an action plan for compliance improvement. A review of each checkpoint includes the code of standard reference, what to look for, and what questions to ask during the assessment.

COURSE LEARNING OBJECTIVES

- Utilize the assessment process
- Complete an assessment checklist to identify gaps
- Understand applicable battery room codes, regulations, and industry best practices
- Perform a battery room compliance assessment

THIS COURSE SHOULD BE COMPLETED BY: Consulting Engineers, Electrical Contractors, Facility Engineers, Application Engineers, Battery and UPS Sales Reps.
