

# FIRE EXTINGUISHERS: READY TO RESPOND

Construction Safety

## Course Syllabus

### TMC4003 - Fire Extinguishers: Ready to Respond

This fire extinguisher training covers all aspects of safely using a fire extinguisher. You will learn the five classes of fires and how to match the right extinguisher to different types of fires. In fire extinguisher training, you will learn how to identify the proper fire class from various sources of material. You will also learn the PASS method for extinguishing a fire. In this fire extinguisher training, you will learn how to inspect an extinguisher and understand the importance of knowing the locations of extinguishers at your location as well as the steps to take if a fire occurs.

## Course Learning Objectives

- Recognize the required elements for fire and the different classes of fire.
- Use the proper fire extinguisher for the specific type of fire.
- Use the proper techniques to extinguish a fire.
- Identify the most common locations of workplace fire extinguishers.
- Properly inspect a fire extinguisher.
- Follow safe and proper procedures to handle a fire.
