

CONFINED SPACE AWARENESS

Construction Safety

Course Syllabus

TMC4001 - Confined Space Awareness

Confined Space Awareness training teaches your workers how to identify a confined space and understand the hazards associated with a confined space. Workers will also learn what to do and what NOT to do during a confined space emergency situation. This confined space training is a great addition to any occupational health and safety training program.

Course Learning Objectives

- Identify types of hazards in confined spaces
- Choose reasons why oxygen could be depleted
- Recognize flammable and explosive atmospheres as confined space hazards
- Choose examples of engulfment hazards
- Identify an example of a mechanical hazard in a confined space
- Identify falls and excessive noise as confined space hazards
- Define a confined space

Formatting and Pricing

Individual courses can be purchased direct from EnviroGuardTraining.com. May be combined with FIT 2. Contact bsantoro@enviroguard.com for multiple attendee discounts or to develop a custom training program to meet your needs.

Format: E-Learning

Catalog# TMC4001(E)
