

EMERGENCY PLANNING

OSHA General

Course Syllabus

TMC4025 - Emergency Planning

Existing OSHA, SARA Title III, and numerous state regulations call for all facilities to meet a number of Emergency Preparedness/Crisis Management requirements. This training assists you in complying with these regulations and helps you prepare for potential emergency situations.

Course Learning Objectives

- Identify the general purpose of an emergency plan.
- Identify the key elements and important information included in an emergency plan.
- Explain the questioning, information gathering and communication processes included in the development of an emergency plan.
- Identify the key elements and limitations of different types of drills.
- Identify specific conditions to be met and procedures that may need to be performed during a live drill.
