

ACCIDENT INVESTIGATION

OSHA General

Course Syllabus

TMC4020 - Accident Investigation

Accident Investigation Training will teach your workers how to properly and effectively investigate accidents. After completion of this course, your workers will be able to determine the cause of an accident, what corrective actions to take to prevent future accidents, as well as how to properly document an investigation. In Accident Investigation Training, video scenarios are used to demonstrate proper investigation techniques.

Course Learning Objectives

- Properly and effectively investigate accidents.
- Determine the cause of an accident.
- Take corrective action to prevent future accidents.
- Properly document all areas of an investigation.
- Follow up on corrective measures.
