

# EYE PROTECTION

OSHA General

## Course Syllabus

### TMC4013 - Eye Protection

This training covers information on how the eye provides natural protections to everyday irritants with its own built-in devices. The training prepares the learner to make the right decisions about when, where, and how to properly use eye protection.

## Course Learning Objectives

- Wear eye protection when it is necessary.
- Wear proper safety glasses when required.
- Wear prescription safety glasses whenever needed.
- Wear eye protection chosen according to the hazard.
- Wear additional eye protection when needed.
- Perform emergency first aid for eye injuries.
- Take the responsibility seriously at all times
