Clear Polycarbonate Battery Terminal Covers

Battery terminal covers are required for battery systems over 50V to be in compliance with NFPA 70E and OSHA 29 CFR. Monitor ready covers are made with holes and notches for wire management.

EnviroGuard ECO Step Rack

EnviroGuard’s ECO Step Rack is a modular design for non-seismic applications. The ECO rack supports lead acid and nickel cadmium batteries in various applications, most often in utility and petrochemical as well as high temperature environments. Ask about our seismic solutions.

VLA & Front Access Rack

EnviroGuard’s Aptus brand UBC, IBC-2012 certified VLA racks with patented FM & UL integrated (bolt-on) containment. Front Access racks are rated to UBC Zone 4 standards and IBC-2012. Front access racks come bare or fully cabled. Floor loading plates are standard.

VRLA Passive Neutralization

The EnviroGuard Mini-Hawk system is designed to meet current passive neutralization for VRLA batteries required by many Authorities Having Jurisdiction (AHJ). Systems are easily shipped and assembled.
