

# Metal and Plastic Fabrication

## The EnviroGuard Difference:

- » 40 years of expertise
- » Precision Fiber Laser
- » Highest level of quality control
- » CAD Design
- » Finishing Services
- » Packaging Services
- » Manufacturing in Montclair, California USA
- » East and West Coast Warehousing & Distribution

### Fiber Laser Capability:

- » Metal Cutting thickness up to 1"
- » Up to 4 times faster than CO2
- » Cuts metal up to 600 inches per minute
- » Max sheet size of 120 x 60 inches
- » Accepts steel, stainless steel, copper, brass, titanium and aluminum

### Services:

- » Laser Cutting
- » CNC Routing
- » Metal Forming
- » Plastic Forming
- » Robotic Welding
- » Certified Welders
- » Finishing Services
- » Packaging Services

### Materials:

- » Stainless Steel
- » Aluminum
- » Copper
- » Titanium
- » Polycarbonate
- » Polypropylene
- » Wood
- » Non-ferrous metals
- » Composite materials
