

OSHA 30 HOUR GENERAL INDUSTRY SAFETY

EnviroGuard Live On-Site Training

Course Syllabus

OSHA 30 hour General Industry Safety

The 30 Hour General Industry Training course is a comprehensive safety program designed for anyone involved in industry. Specifically devised for safety directors, foremen, and field supervisors; the program provides complete information on OSHA compliance issues. Construction workers must receive additional training, when required by OSHA standards, on specific hazards of the job. Upon successful completion of the course, participants will be mailed a Department of Labor 30-Hour General Industry Certification Wallet Card.

Course Learning Objectives

At the end of the training, the student will be able to:

- State the purpose of the OSHA Act and list the functions of OSHA
- List the OSHA inspection priorities and describe the inspection process
- Describe the rights and responsibilities of employers and employees under the OSHA Act
- State the basic requirements for proper aisle and passageway maintenance
- Outline the guidelines for identification and protection of floor opening
- Understand the importance of effective egress fire protection program

Who should take this course?

OSHA 30 hour training is designed for foremen, directors, supervisors or other onsite managers. Safety training courses offered by Enviroguard provide complete information on OSHA standards compliance
